PROJECT NAME	Flood Emergency response	
LOCATION	Flood affected counties in Kenya	
NUMBER OF BENEFICIARIES	100,000	
PROJECT PARTNERS	Rotary District 9212, DNA-RAG	
IMPLEMENTATION PERIOD	May 1st to August 1st 2025	
Project Budget	A	

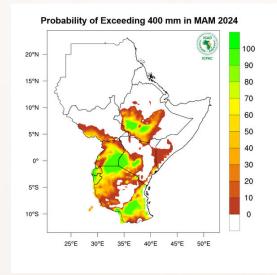

FLOODING EMERGENCY IN EAST AFRICA

The East African region has been inundated heavy rainfall sometimes topping 200mm per day which is causing heavy flooding. The March-April- May rainy season was forecasted to have increase rainfall in the region as shown in the figure below:

Over 400mm of rainfall was forecast in many areas as shown in the figure below:

Many places in Kenya, Uganda, Ethiopia and Tanzania are forecasted to receive mre than 400mm of rainfall. This will be exacerbated by Tropical cyclone Hidaya that es expected to make landfall of the Coast of Tanzania between 3rd and 4th May with heavy rainfall forecast for the region.

A Nationwide assessment of all dams has been conducted and 192 dams identified to be high risk in **Central** (60), **Eastern** (39), **Rift Valley** (29), **Coast** (22), **Western** (21), **Nairobi** (12), **North Eastern** (5), and **Nyanza** (4).

EFFECTS IN KENYA		
Parameter	Number	
Deaths	210	
Missing Persons	90	
Injuries	125	
Displaced Households	33100	
Displaced persons	165,500	
Total people impacted	1986,296	
Total schools affected	1,967	

ROTARY D9212 INTERVENTION

- Emergency response teams from the District working with the clubs alongside the Kenya Red Cross are taking part in recovery efforts and provision of temporary shelter, food, clothing, water, medicine among others
- The number of persons affected is rising rapidly and fundraising efforts have not matched the need

GAPS

1.0 Shelter Provision

The required quantities currently are 16,000 shelter kits with the numbers expected to rise to top 100,000 kits. The pricing for the components of the kit is broken down below in US Dollars.

Item	Unit	Unit Cost in USD
Kitchen Sets	PCS	25
Tarpaulin	PCS	30
Bar Soaps	PCS	2
